Stephen Curry is a point guard for the Golden State Warriors and has had an illustrious career...but, what exactly are his strengths and areas of improvement?

2.	2010-2011	140
3.	2011-2012	20

6.	2014-2015	200
7.	2015-2016	170
8.	2016-2017	160

Strengths

Curry can easily set up his teammates for the shot and is arguably the best shooter in history, putting his opponent in double jeopardy. Curry might even become the greatest scorer of all time, if he maintains his seasonal scoring average.

Areas of Improvement

Although Curry has remained consistent in rebounding, he could improve his steals, which have dipped since his 15/16 season-high. Given his size, it's unlikely he can improve his blocking against taller point-guards.

Injuries

Not only has Curry suffered several injuries throughout his career, mostly earlier in his career, so have his teammates - most notably Klay Thompson and Kevin Durant. This has particularly caused the team to perform poorly this season or underperform in the playoffs.
